Next of Kin (Name[s], date[s] of birth and address[es])

An unexpected death is defined as the death of an infant or child (less than 18 years old) that was not anticipated as a significant possibility, for example 24 hours before the death, or where there was a similarly unexpected collapse or incident leading to or precipitating the events which led to the death. (Working Together to Safeguard Children, HM Government, 2013)
