INCB00928-104	A Phase 1/2 Open-Label, Multicenter Study of INCB000928 Administered as a Monotherapy or in Combination With Ruxolitinib in Participants With Anaemia Due to Myeloproliferative Disorders	Closed to recruitment (in follow up) No Active Participants

Additional Commentary

Request received by R&D 07/07/2025.

With reference to the clinical trial question (Q5), the data included relates to any clinical trials for the treatment of myelofibrosis which are currently recruiting participants or have participants under treatment or in follow-up.

The number of active participants relates to those participants currently undergoing treatment or in follow-up.

We have also listed active clinical trials at RCHT that do not have any active participants.

Thank you.
