Jo Danielsen
Admiral Nurse

Demelza Udy
Assistant Practitioner

Who are the Admiral Nurses?

Our Admiral Nurses in Cornwall specialise in helping and supporting families that care for someone living with a dementia diagnosis. We also have an Assistant Practitioner who provides appropriate signposting, support and advice to carers.

We know that living with dementia can sometimes be a hard and lonely experience, and when you are caring for a loved one who has a diagnosis of dementia it can sometimes be overwhelming.

How can the Integrated Admiral Nurse Team help?

- One to one telephone support, a dedicated team to talk through your concerns about your caring role and get personalised guidance.
- Specialist psychological and emotional help, support to manage the emotional impact of caring.
- Practical advice and education, tips and information, including resources to help make caring more manageable.
- Guidance to access the best possible care and support, helping carers navigate services to get the right help and support at the right time.
- Making the caring journey more positive, helping carers feel more supported and confident in their caring role.

Requirements for access to the service:

- Confirmed dementia diagnosis.
- Consent from family member for referral to the service.
- Referrals accepted from professionals, or self referrals.
